SUMMARY

This is Rishi Mittal, a Passionate Web developer and competitive programmer. I enjoy creating innovative web solutions and participating in programming competitions. Proficient in HTML, CSS, JavaScript, React, and java, I transform ideas into functional websites with seamless user experiences. I thrive on tackling complex algorithmic challenges and excel in data structures, algorithms, and efficient coding techniques. I'm a fast learner, adaptable to new technologies, and believe in sharing knowledge through technical articles and tutorials.
